NORTHERN CHESTER COUNTY FIRE CHIEFS ASSOCIATION
C/O RIDGE FIRE COMPANY
480 RIDGE RD. SPRING CITY, PA. 19475 - 9678

October Advisory Board Notes 10/18/2018.

DES Report:

- DES Director interviews are ongoing into early November
- DES Requests for participation at Fire Prevention events in 2019 should be submitted early.
- ADI Integration with Emergency Reporting from CAD is available if you have a maintenance plan with ADI there is just a one time fee to get it setup.
- CAD: Updates to MPS will make it so self attaching yourself to an incident will put you enroute.
- SMU Status: Patch going out to hopefully fix the SMU issues soon. Will be done under a CAD maintenance window.
- Paging: Locution building out a statement of work. 3 or more units from one station will get truncated to be due for full station. Same threshold that is currently used when dispatching. County would like to keep the nature of the call at the end of the dispatch now that we know Locution can truncate the unit due. Had issues in the past or with other disciplines where the first responder only reacts to the nature and does not retain the location or what's due.

Districts:

North- Received what contacts could be located for the utilities in the west to be passed on to Twin Valley. Meeting in November at Station 65

South, East, & Central- Nothing to report

West- Silo Type Code

Fire Police- November 4th meeting. West Vincent PD Chief Swinger will be present to thank the FP for their assistance with the music concert.

EMS Council- 89 turned in their rehab trailer. Will be kept at the PSTC for their use. Station 67 will be able to make their Squad have a rehab attribute in CAD and be dispatched on rehab requests.

Old Business:

- Strategic Plan pushed out 60 days

New Business:

- Nomination Committee in the works
- Request for a new **Silo Fire Type Code** was reviewed and approved. The default response will call for 1 Engine, 1 Truck, 1 Tanker and 1 BLS. Individual stations can customize this box as they need.
