# SAVING LIVES CAMPAIGN

IN PARTNERSHIP WITH LOWE'S, FIRST ALERT,  
AND THE NORTH COVENTRY TOWNSHIP FIRE MARSHAL

Every year, thousands of people die in house fires. Just this year alone, there have been **over 1,500 people killed** in house fires, with 77 of them in Pennsylvania. Most of these deaths could often be prevented if the home is equipped with working smoke detectors.

Sadly, most homes (especially with children) do not have working smoke detectors. We recently had tragedy strike our local community when a young boy, just 9 years old, perished in a house fire. We will not let his death be in vain.

This campaign is to raise awareness that **SMOKE DETECTORS SAVE LIVES**. They are the first line of defense against most fires, yet there are still many homes without these life saving devices. This campaign will not cost tax-payers anything. It is funded solely on grants and donations. The time spent for inspections/ installations is all volunteer!!

Please educate yourself and your family in fire prevention and fire safety practices.

If you are unable to afford the amount of smoke detectors you need to properly protect your home and family, please complete this application. You will be contacted by Norco Fire Company representative who will set up an inspection of your home to ensure the proper installation.

If you ARE lucky enough to be able to afford smoke detectors, please feel free to ask us for assistance in what to purchase and we can assist you in installing them.

If you know someone who may need assistance with their smoke detector installation or cannot afford to purchase them on their own, please pass this information along to them!

Help us to help you!
